

## Plantronics Unified Communications Portfolio

With a focus on clear, consistent and reliable voice collaboration, Plantronics is dedicated to partnering with enterprises to provide superior audio devices for unified communications deployments. The Plantronics Unified Communications portfolio offers a broad range of solutions for diverse working styles, with high-quality audio and world class technical support.

1. Add desk phone connectivity when used with MDA200 (see page 2).

2. Features adaptive power which optimizes for range and talk time to save battery life and maximize density.

3. Performance dependent on battery and may vary by device.

4. Unlimited talk time with deluxe charging cradle kit, comes standard with Savi 745/445. Available as an accessory with Savi 740/440.

5. Answer/ignore voice commands are currently for mobile phone only.

### MDA200

Belonging to our UC Enabler category, the MDA200 headset communication hub allows a corded or wireless USB headset<sup>2</sup> to connect to and switch between calls from both PC and desk phone.

MSRP: \$129.95

1. Add desk phone connectivity when used with MDA200.
2. For a list of Plantronics headsets that are compatible with MDA200, visit [plantronics.com/configurator](http://plantronics.com/configurator).

### Technology Legend

#### A2DP

A Bluetooth profile that allows high quality audio content to be streamed from one device to another. Listen to streaming media, music and navigation through your headset.

#### Active Noise Canceling (ANC)

Technology that reverses surrounding sound waves to cancel low frequency noise in order to isolate and minimize ambient noise the user can hear.

#### Adaptive Power

Automatically downshifts to low power when the wireless headset is close to the base to save battery life and maximize density.

#### Dynamic EQ

Optimizes voice quality on calls and automatically adjusts EQ settings when listening to music or for multi-media playback.

#### Hi-fi Stereo

Full-range dual channel audio playback capable of frequencies from 20 to over 20,000Hz.

#### Immersive Audio

Specially designed ear cushions and headband reduce background noise and allow you to focus.

#### Smart Sensor Technology

Built-in sensors deliver automatic functionality like answering a call by placing the headset on and automatically transferring calls between mobile phone and headset.

#### SoundGuard

Acoustic limiting for protection against sounds above 118 dBA per Telecom Industry Standards.

#### SoundGuard DIGITAL

All the benefits of SoundGuard, plus anti-startle protection which detects sudden increase in sound and eliminates the increase, and Time Weighted Average (TWA) control which prevents average daily sound exposure from exceeding 85 dBA.

#### Wideband

Frequency range up to 6,800 Hz. Meets TIA-920 standard for genuine wideband response.
